

Health and safety representatives matter!

We need to **hear** about workers' health and safety concerns!

We need to open our eyes and **see** what is really happening in our workplace!

We need to **speak up** if we have health and safety concerns!

Make a difference!

Identifying, understanding and controlling hazards is crucial to preventing serious injuries and deaths in our industry.

Safety concerns?

Talk to your health and safety representative. It is their role to confidentially raise health and safety issues on your behalf.
