

Acknowledgement of accredited consultant's responsibilities

The Chief Dangerous Goods Officer (Chief Officer) accredits approved persons to provide certificates in accordance with regulations:

- r. 26(3) and r. 29(4B) of the Dangerous Goods Safety (Storage and Handling of Non-explosives) Regulations 2007,
- r. 157(8) of the Dangerous Goods Safety (Explosives) Regulations 2007, and
- r. 30(5) of the Dangerous Goods Safety (Security Sensitive Ammonium Nitrate) Regulations 2007.

In providing a certificate, the approved person confirms the accredited consultant has read the application and is satisfied it meets the requirements of the relevant regulations for which they are accredited.

The approved person is to apply the policy positions and expectations of the Chief Officer as if the assessment was being conducted by a dangerous goods officer. This means that the licensee will comply with all relevant:

- regulations,
- mandatory codes of practice, and
- approved codes of practice (or an alternative that provides an equivalent or better safety outcome).

The approved person must place achievement of the above requirements ahead of the commercial interests of the licence applicant.

Approved persons must alert their clients of these responsibilities when they are engaged to prepare a licence application.

Acknowledgement

I understand and accept the above requirements as a condition of engagement of

,
an approved person, to prepare and endorse dangerous goods licence application.

I give my permission for this accredited consultant to access and modify my licence details on my behalf.
