

## High risk work licence classes

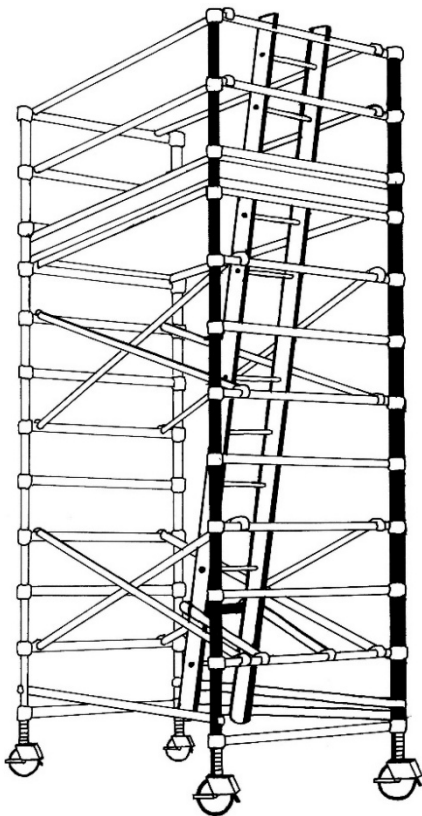

# Scaffolding work

### Basic scaffolding (SB)

The scope of work for a basic scaffolding licence class includes:

- modular or prefabricated scaffolds
- cantilevered materials hoists with a maximum working load of 500 kilograms (installation only, not operation)
- ropes and gin wheels
- safety nets and static lines
- bracket scaffolds (tank and formwork).

The erection, altering or dismantling of a scaffold where a person or object could fall more than 4 metres from the structure or platform requires a basic scaffolding high risk work licence.

*Figure Prefabricated scaffold (tower frame type)*
